

## ADVANTAGES

- Integrated control system
- Three sizes – small footprint
- Air volume from 1,500 m<sup>3</sup>/h up to 5,500 m<sup>3</sup>/h (900 - 3,200 cfm)
- Plug & play
- Integrated spark arrestor
- Dual pulse cleaning technology
- Efficient PTFE filter cartridges
- Integrated, sound-insulated fan

<b>Application</b>	Manual welding. Manual grinding Non-explosive fine dust
<b>Installation Options</b>	<ul style="list-style-type: none"> <li>- The system is available in three different sizes, handling air volumes from 1,500 m<sup>3</sup>/h up to 5,500 m<sup>3</sup>/h (900 cfm - 3,200 cfm).</li> <li>- The small footprint of the dust collectors allow flexible installation close to the process what reduces costs for ductwork.</li> <li>- Each model size can be configured to meet the specific challenges faced by the customer</li> <li>- Plug &amp; play</li> </ul>
<b>Comment</b>	<p>Innovative Dual-Pulse Cleaning System:</p> <ul style="list-style-type: none"> <li>- Unique dual section design prevents accumulation of dust on top of filters</li> <li>- Provides uninterrupted airflow during pulse cleaning</li> <li>- Provides longer filter life</li> <li>- Reduced compressed air consumption</li> <li>- High efficiency PTFE filter cartridges</li> </ul>
